SUMMARY

I'm a third-year Computer Engineering student with proven leadership and project management skills. I am passionate about open source contributions. Eager to participate in the hackathons , expand my skill set and contribute meaningfully to innovative projects, I bring a commitment to excellence and a quick learning ability, ready to make a significant impact.

PROJECTS & CERTIFICATIONS

- **AwareHer,** a hackathon project empowering women with rights, policies, and financial literacy knowledge, plus a platform for sharing blogs about different experiences. It was built with Html,Css,JavaScript, Express.js, and MongoDB, it offers a seamless and engaging experience.

- **SweatFlix - Your Home Workout Assistant**, that includes a chatbot(doubt solver), workout videos , recent news/trends and gamified challenges. A hackathon project with Html,Css,JavaScript as Frontend, Express Js & MongoDb as Backend.

- **Weather App**, fueled by Html,Css, and JavaScript, harnessing RapidAPI's Weather API to fetch precise forecasts for global cities, presented through a sleek, user-friendly interface.

- **Postman API Fundamentals Student Expert Certification (Nov 2024) -** Completed a hands-on certification in API fundamentals, covering API testing, GET/POST requests, API key authorization, and more, demonstrating core skills in API usage with Postman.

- As a **Hacktoberfest contributor in 2023 and 2024,** I improved frontend features by fixing UI elements, adding documentation, and integrating a chatbot with Botpress, completing 4 merged PRs each year.
